

# 3D Dynamic CO2 Laser Marking Machine

## XXP3-320-EL

The machines from XXP series are equipped with the brand new features from the optical technology of ExpressLaser. Those features becomes the XXP series the leading three dimensional dynamic CO2 laser marking system in the market.

The speed of this machine was increased in 20%, a feature that joins to the large working area of 600mmx600mm and the increased power of 15%.

### Possible Materials

Genuine leather, Artificial leather, Denim, Paper, Fabrics, Wood, Bamboo, Plastic, Rubber, Acrylic, Marble, Crystal, among others.

### Applicable to Industries:

Leather, Shoes, Denim wash, Paper, Woodware, Packaging, Advertising, Crafts & gifts, among others.

Technical Parameters	
Gross Power	4.5KW
Working Area	300mm x 600mm / 600mm x 600mm
Dimensions	1720x740x1500mm
System Compatible	Windows XP/7
Compatible Formats	AI , PLT , DXF , DST , BMP , JPG , JPEG , PNA , TIF
Weight	250Kg
Power	220V - 50/60Hz - 20A
Environmental Standards	Temp.: 15-30°C Humidity: 30%-80% (non-condensing)
