

Laser Marking System with Automatic Feeding

XXP3S-180-EL

The XXP3S-180-EL combines the capabilities of 11 ExpressLaser machines (10 laser cutting machines and 1 laser marking machine). It allows one time finishing of multiple processing (perforation, cutting, engraving and marking). Maximize production, save labor cost and reduce waste of materials with this powerful ExpressLaser machine.

Applicable to Industries:

Garments, Leather, Craft, Packaging, Advertising, Automotive Interiors, Home textiles and Furnishing.

Technical Parameters	
Gross Power	4.5KW
Working Area	1600mm x 500mm / 600mm x 600mm
Dimensions	3150x1915x1824mm
System Compatible	Windows XP/7
Compatible Formats	AI , PLT , DXF , DST , BMP , JPG , JPEG , PNA , TIF
Weight	1100Kg
Power	220V - 50/60HZ - 32A
Environmental Standards	Temp.: 15-30°C Humidity: 30%-80% (non-condensing)
